

Exchange learning programs  
with an impact

## Who We Are

We believe in the power of knowledge transferred between communities

We are a non-profit organization that provides a medical training service to North American students while also providing at-risk, under-resourced communities in Nicaragua with free medical, dental and veterinary attention.

## Mission

To foster a world where true development is seen not as a one-way transfer between the haves and have-nots, but as a knowledge exchange between two communities respected for their valued contributions.

## Vision

To facilitate the exchange of knowledge amongst communities of the global north and global south via mutually beneficial exchange learning programs, covering a

most of need communities in all Nicaragua.

## General Objective

Provide low-resource, at-risk communities

with free medical, dental and veterinary attention while providing North American students with the opportunity to define

their vocations and learn from

Nicaraguan medical, dental, and

veterinary professionals working in a low-resource, rural environment.

## Specific Objective

- Provide medical, vet, and dental attention to at-risk communities.

- Facilitate the knowledge exchange between Nicaraguan medical professionals and North American students.

- To help the students to define their vocations.

## Medical Training Program

**Place of work:** Under-served communities of Nicaragua.

**Program Duration:** 8 days

**Program Director:** Dr. Cesar Antonio Boza Gaitan

### Minimum Number of Participants:

15 people

We guarantee that your Synaptic Communities (SC) trip to Nicaragua will be an amazing and unforgettable experience. We will provide you with all the tools you need to ensure that this trip is a huge opportunity to receive rural medical training and learn about medicine in another country as well as provide a free medical service to people in Nicaragua's high-risk communities.

### Seminar

On the day after arrival, the seminar starts at 8am in the Hotel auditorium and ends around noon with a 15-minute morning break. During the seminar, the students will meet the SC Staff; learn about the culture of Nicaragua and the communities where they will be working. One of the doctors will also give a brief class on the pathologies and treatments that they will see during the brigade days. Synaptic Communities will provide students with a document that contains information snap-shots on these pathologies and treatments prior to their arrival in-country). The seminar will conclude with instructed practice exercises on how to take vital signs as well as a mock-clinic exercise to prepare them for the clinic days.

### Hands-On Training

Students will arrive to the communities at 8am, be introduced to the SC Community Staff Member, and then be divided into groups tasked with taking the vital signs and medical history of each patient that is sent by the SC staff. This can take between 10 to 15 minutes per patient.

Once the medical history and vital signs have been taken, students will brief the doctor on the patient information and the doctor will explain the pathology and appropriate treatment while providing the patient with the appropriate treatment. The prescriptions will be signed and stamped by the doctor with the following information: 1. Name of the patient, 2. Age of the patient, and 3. Name of the medication (each medication prescribed must be on a separate prescription).

Once the prescription is ready, a student will go to the pharmacy to bring the medication/s for the patient and the doctor will explain to the patient how he/she must take the medication while the students observe.

### Cultural Tour Day

As a break between the four clinic days, students will get a full day of fun activities including zip-lining, lounging in Masaya's beautiful lagoon, and/or a visit to Masaya's live volcano.

\*Activities are subject to change depending on weather and environmental factors.

### Snap-Shot Itinerary

**Day 1:** In-Country Arrival

**Day 2:** Seminar and Arrival to Community Hotel

**Day 3:** Clinic Day

**Day 4:** Clinic Day

**Day 5:** Cultural Tour Day

**Day 6:** Clinic Day

**Day 7:** Clinic Day

**Day 8:** Airport Departure Day

### Travel

Students will arrive at Augusto Cesar Sandino, International Airport (MGA), Managua, Nicaragua. The SC team leader will await the group at the main exit door holding an SC sign and wearing an SC T-shirt. We require that students send us their proposed flight itinerary for validation before booking as well as a complete flight itinerary so that we may ensure a smooth trip for all.

On arrival day, students will have free transportation from the airport to the hotel. On departure day, students are responsible for the cost from the hotel to the airport.

### Liability

To best ensure the student's health and safety during this trip, we require information on all dietary restrictions, allergies, and medical issues.

### What's Included

\*Hotels

\*Private, local travel expenses to and from clinics and between cities when we move hotels during the trip as well as airport pickup.

\*Breakfasts throughout the trip and catered lunches and snacks during the clinic days

\*Clinic day expenses (medications, supplies, doctors, interpreters, etc.)

Hired personnel (full-time trip doctor, brigade leader, brigade assistant leader, drivers)

\*Transportation during the tour day

### Does not Include

\*Flight Ticket/Airport Entrance and Exit tax

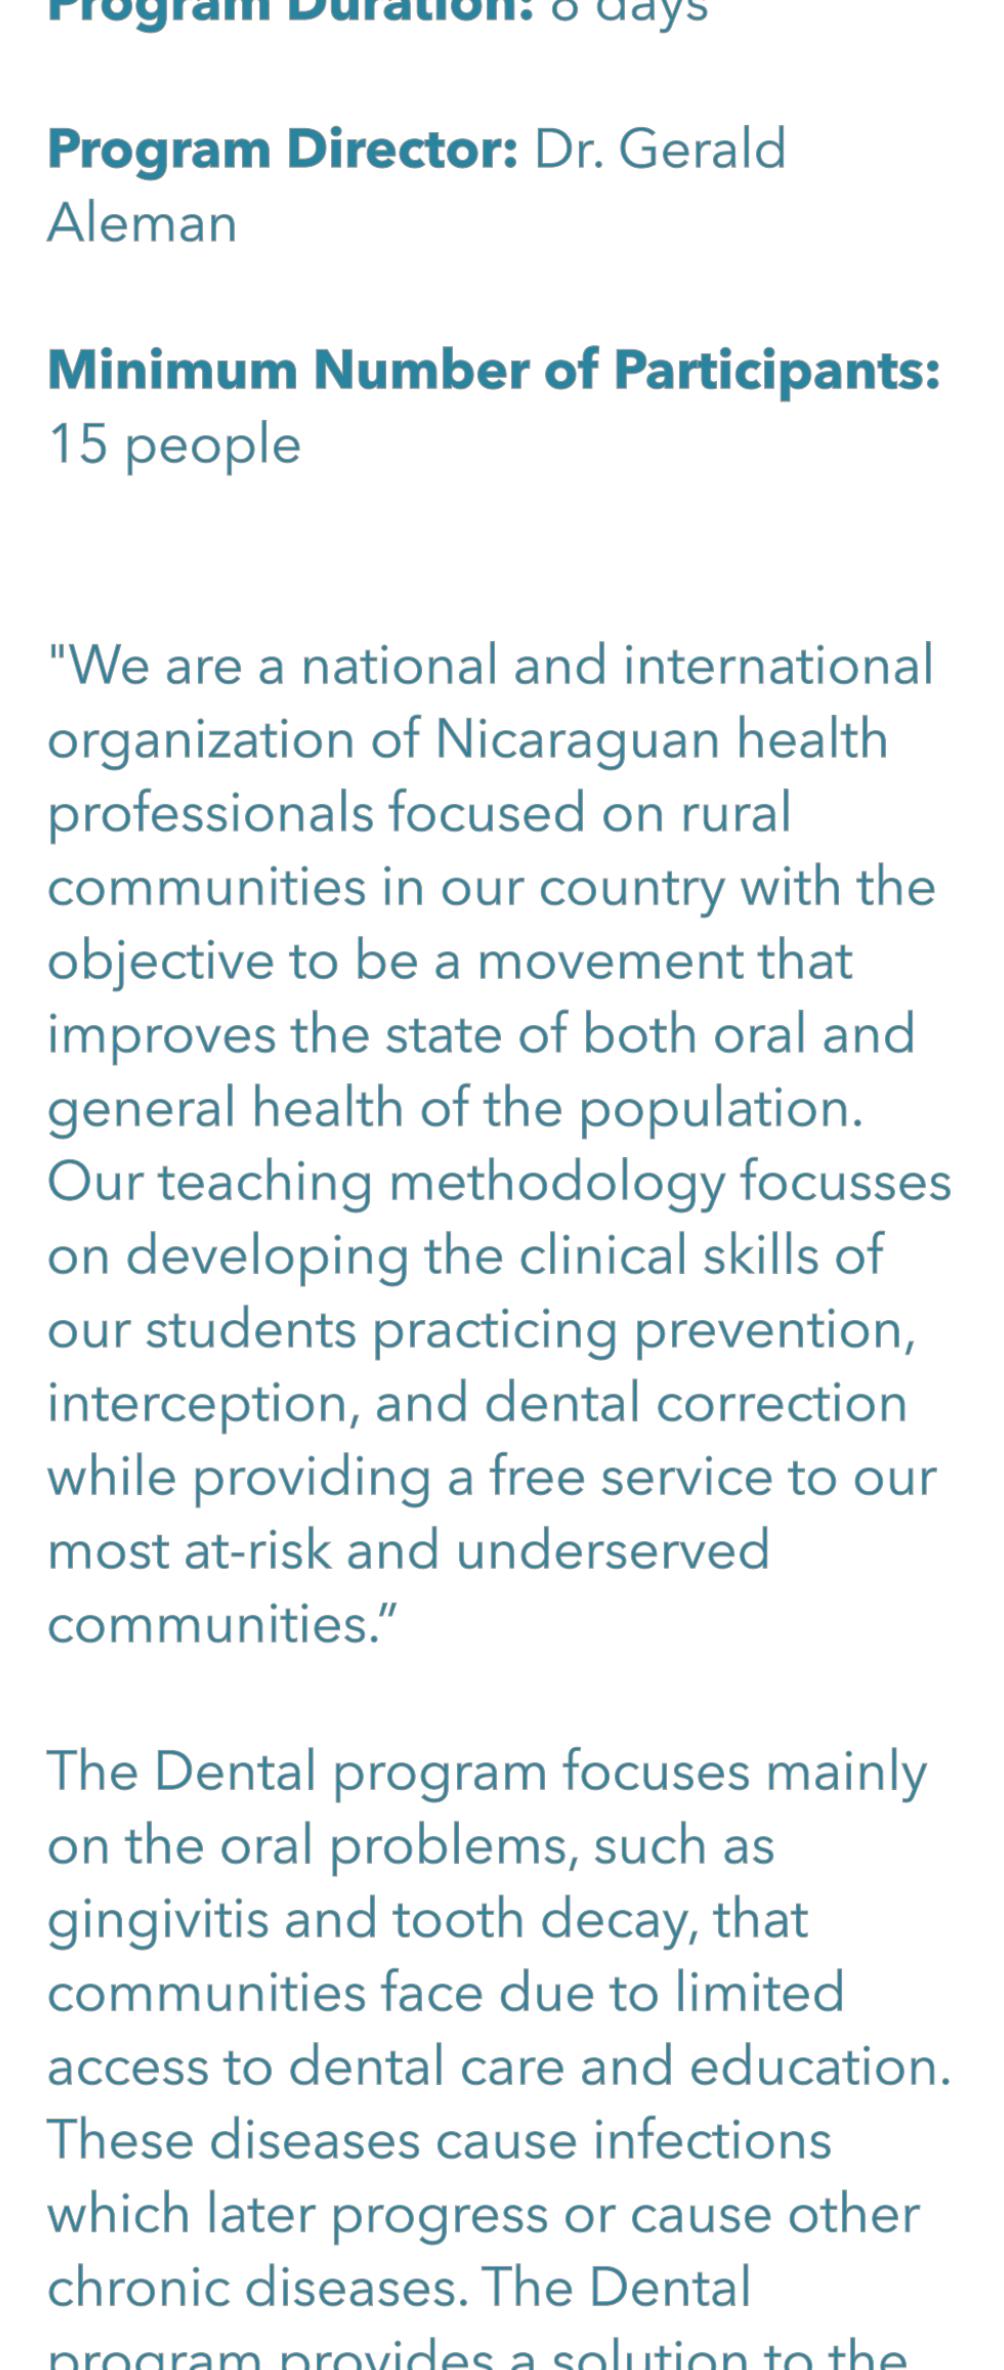

\*Laundry

\*Dinner

\*Personal expenses during the tour day

## Dental Training Program

**Place of Work:** Under-served communities of Nicaragua.

**Program Duration:** 8 days

**Program Director:** Dr. Gerald Aleman

**Minimum Number of Participants:**

15 people

"We are a national and international organization of Nicaraguan health professionals focused on rural communities in our country with the objective to be a movement that improves the state of both oral and general health of the population. Our teaching methodology focusses on developing the clinical skills of our students practicing prevention, interception, and dental correction while providing a free service to our most at-risk and underserved communities."

The Dental program focuses mainly on the oral problems, such as gingivitis and tooth decay, that communities face due to limited access to dental care and education. These diseases cause infections which later progress or cause other chronic diseases. The Dental program provides a solution to the oral health problems of our communities by providing immediate dental care, preventive treatments, and education through mobile medical clinics. These clinics are coordinated alongside our Medical program and endorsed by the Government of Nicaragua.

**Volunteers or students will be able to**

\*Observe procedures such as fillings, sealants, cleanings, and fluoride application

\*Assist licensed Nicaraguan dentists on minor surgeries through helping to prepare and clean the equipment and attend to the patient's needs.

\*Attend a dental mobile pharmacy guided by a licensed pharmacist tasked with prescriptions made by the dental surgeon.

\*Assist with patient's dental history through using an odontogram (reading and nomenclature in accordance with the international method).

\*Direct community dental hygiene workshops for children and adults

**Services offered by the Dental Brigade**

- Cleaning treatment - the elimination of bacterial plaque, supra-gingival and infra-gingival tartar, and alba's material of the teeth through a prophylaxis technique and/or brushing technique in some of the cases with manual and ultrasonic use.

- Restorative treatment and extractions - the elimination of cavities and restoration of teeth with fissures using the technique of obturation. Resins will also be applied, and in the case of very advanced cavity formation, tooth mobility, and/or tooth loss, the extractions of the tooth or its radicular remains will be carried out.

- Education Charlas- cleaning, maintenance, and the adequate masticatory process will be included in the Education Charla directed by the students prior to the patients' treatments. Students will explain and demonstrate the correct way to brush and chew by means of a typodont.

- Referral to specialized dental centers - At the time of dental diagnosis, the patient will receive an explanation of the treatment that will be performed. However, if the work requires more specialized attention, the patient will be sent to a more specialized center free of charge (such as the hospital/dental faculties of one of Nicaragua's universities).

**What's Included**

\*Hotels

\*Private, local travel expenses to and from clinics and between cities when we move hotels during the trip as well as airport pickup.

\*Breakfasts throughout the trip and catered lunches and snacks during the clinic days

\*Clinic day expenses (medications, supplies, dental instruments, dentists, interpreters, etc.)

\*Hired personnel (full-time trip doctor, brigade leader, brigade assistant leader, drivers)

\*Transportation during the tour day

**Does not Include**

\*Flight Ticket/Airport Entrance and Exit tax

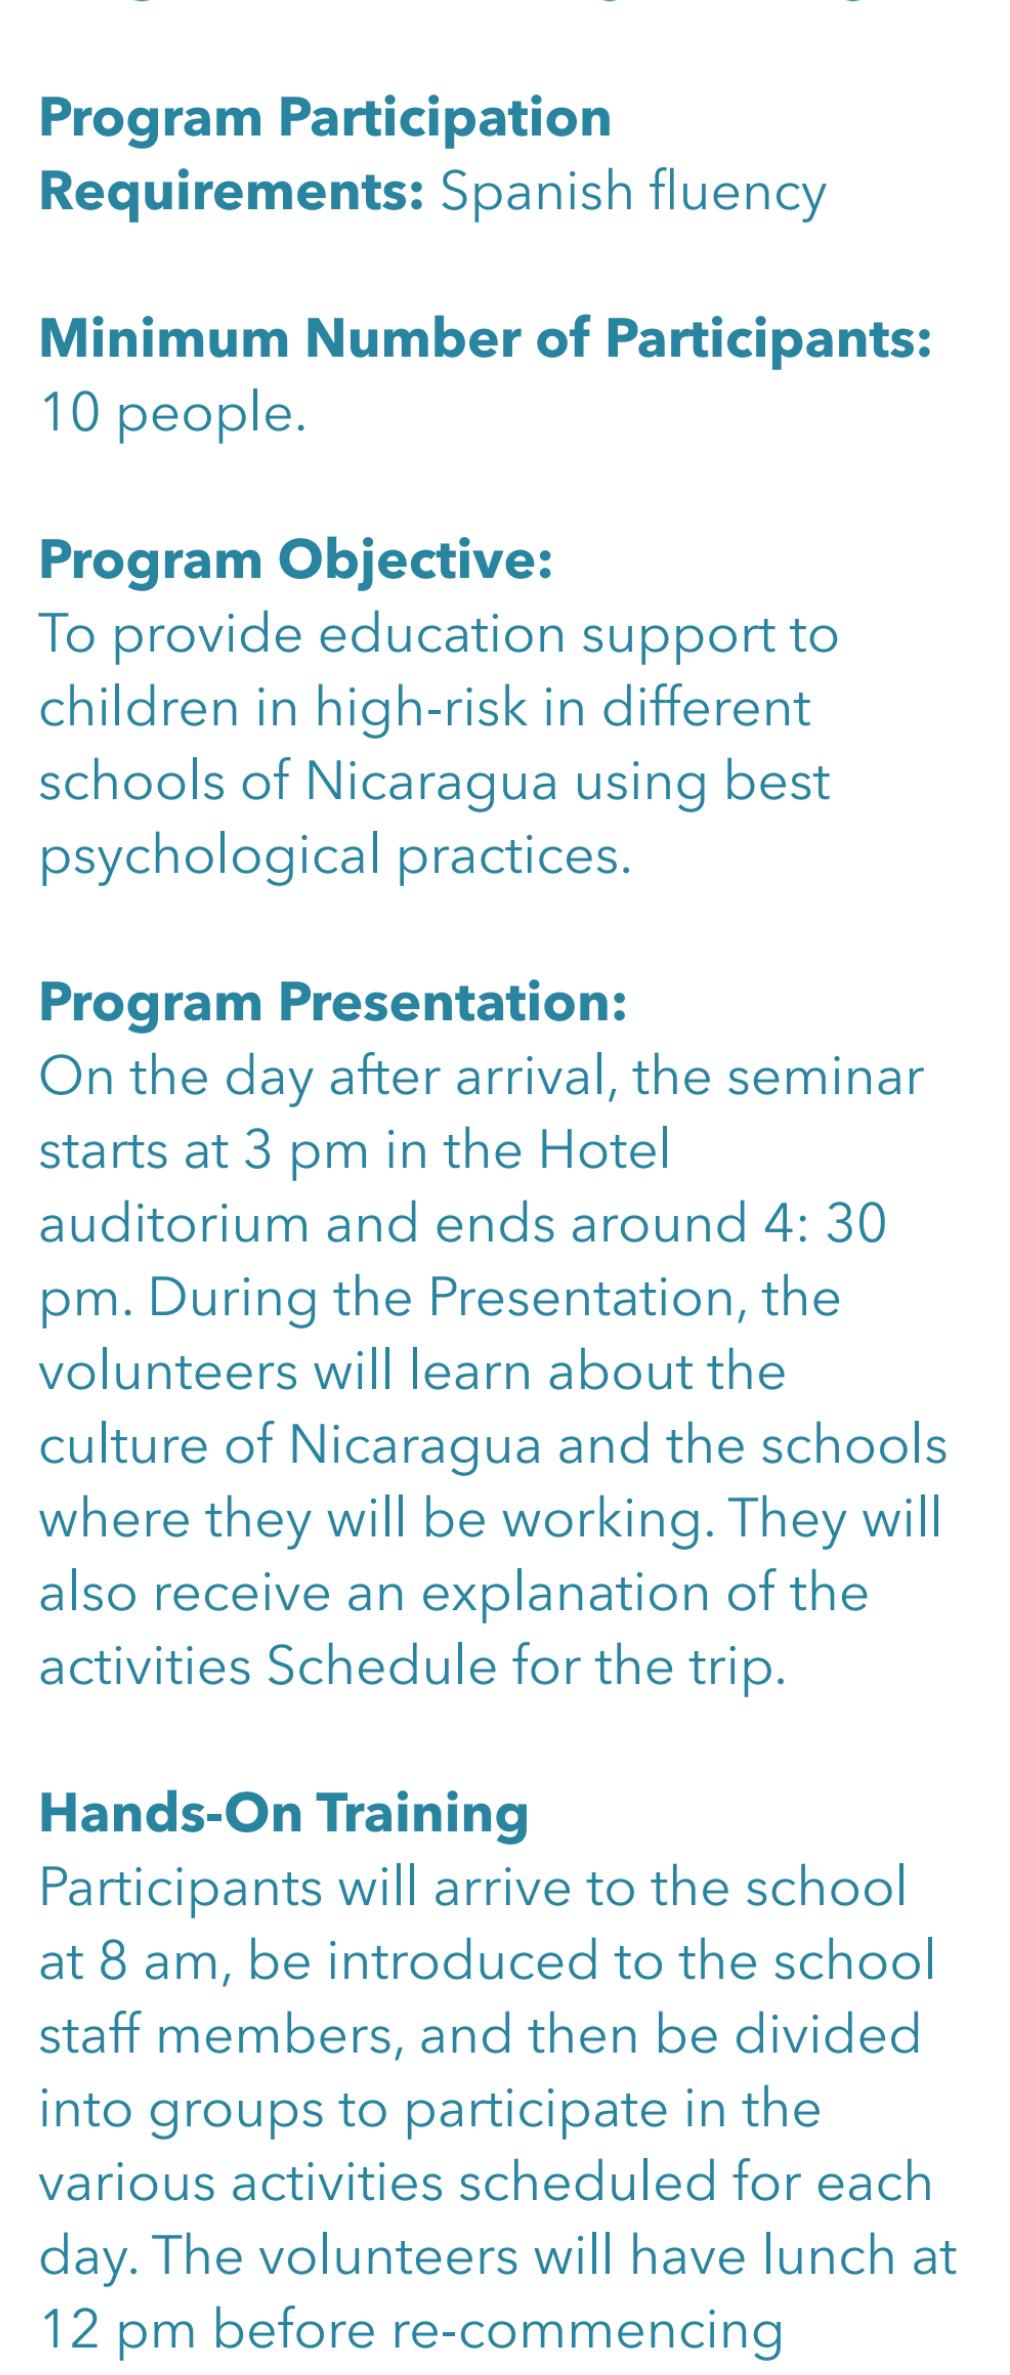

\*Laundry

\*Dinner

\*Personal expenses during the tour day

## Education Support for High-risk Children Program

**Place of Work:** Schools of Nicaragua.

**Program Duration:** 15 days

**Program Director:** Angela Huergo

**Program Participation**

**Requirements:** Spanish fluency

**Minimum Number of Participants:** 10 people.

**Program Objective:**

To provide education support to children in high-risk in different schools of Nicaragua using best psychological practices.

**Program Presentation:**

On the day after arrival, the seminar starts at 3 pm in the Hotel auditorium and ends around 4: 30 pm. During the Presentation, the volunteers will learn about the culture of Nicaragua and the schools where they will be working. They will also receive an explanation of the activities Schedule for the trip.

**Hands-On Training**

Participants will arrive to the school at 8 am, be introduced to the school staff members, and then be divided into groups to participate in the various activities scheduled for each day. The volunteers will have lunch at 12 pm before re-commencing activities at 1 pm. The workday ends at 4 pm.

**Cultural Tour Day**

As a break between the 2 weeks of work, students will get a full weekend of fun activities including a visit to the Little Islands of Granada, Old Market Masaya, Masaya's beautiful Apoyo Lagoon, the Catarina lookout, and a visit to Masaya's live volcano. The activities will be distributed between a two-day tour.

\*Activities are subject to change depending on weather and environmental factors.

While Synaptic Communities will provide transportation, the rest of the expenses (entrance fees and food) will be assumed by the participants.

**Snap-shot Itinerary:**

**Day 1:** Country arrival/stay in Hotel Hex

**Day 2:** Departure to the permanent hotel ( Masaya or Managua) and program presentation

**Day 3:** First day of school work

**Day 4:** Second day of school work

**Day 5:** Third day of school work

**Day 6:** Fourth day of school work

**Day 7:** Fifth day of school work

**Day 8:** First cultural tour day

**Day 9:** Second cultural tour day

**Day 10:** Sixth day of school work

**Day 11:** Seventh day of school work

**Day 12:** Eighth day of school work

**Day 13:** Nineth day of school work

**Day 14:** Tenth day of school work/ check out of the hotel and departure to Hotel Hex

**Day 15:** Airport departure day

**Travel**

Participants will arrive at the Augusto C. Sandino International Airport (MGA) in Managua, Nicaragua. The SC team leader will await the group at the main exit door holding an SC sign and wearing an SC T-shirt. We require that participants send us their proposed flight itinerary for validation before booking as well as a complete flight itinerary so that we may ensure a smooth trip for all.

On the arrival day, participants will have free transportation from the airport to the hotel. On the departure day, participants are responsible for the travel cost from the hotel to the airport if the time they leave does not match with the hotel transportation schedule. The cost of the transport is \$6 and can be divided amongst several people.

**Liability**

To best ensure the student's health and safety during this trip, we require information on all dietary restrictions, allergies, and medical issues.

**What's Included**

\*Hotels

\*Private, local travel expenses to and from clinics and between cities when we move hotels during the trip as well as airport pickup.

\*Breakfasts throughout the trip and catered lunches and snacks during the school days

\*School supply donations and financial assistance to the schools where participants will be working

\*Hired personnel(brigade leader, drivers, school staff)

\*Transportation during the tour day

**Does not Include**

\*Flight Ticket/Airport Entrance and Exit tax

\*Laundry

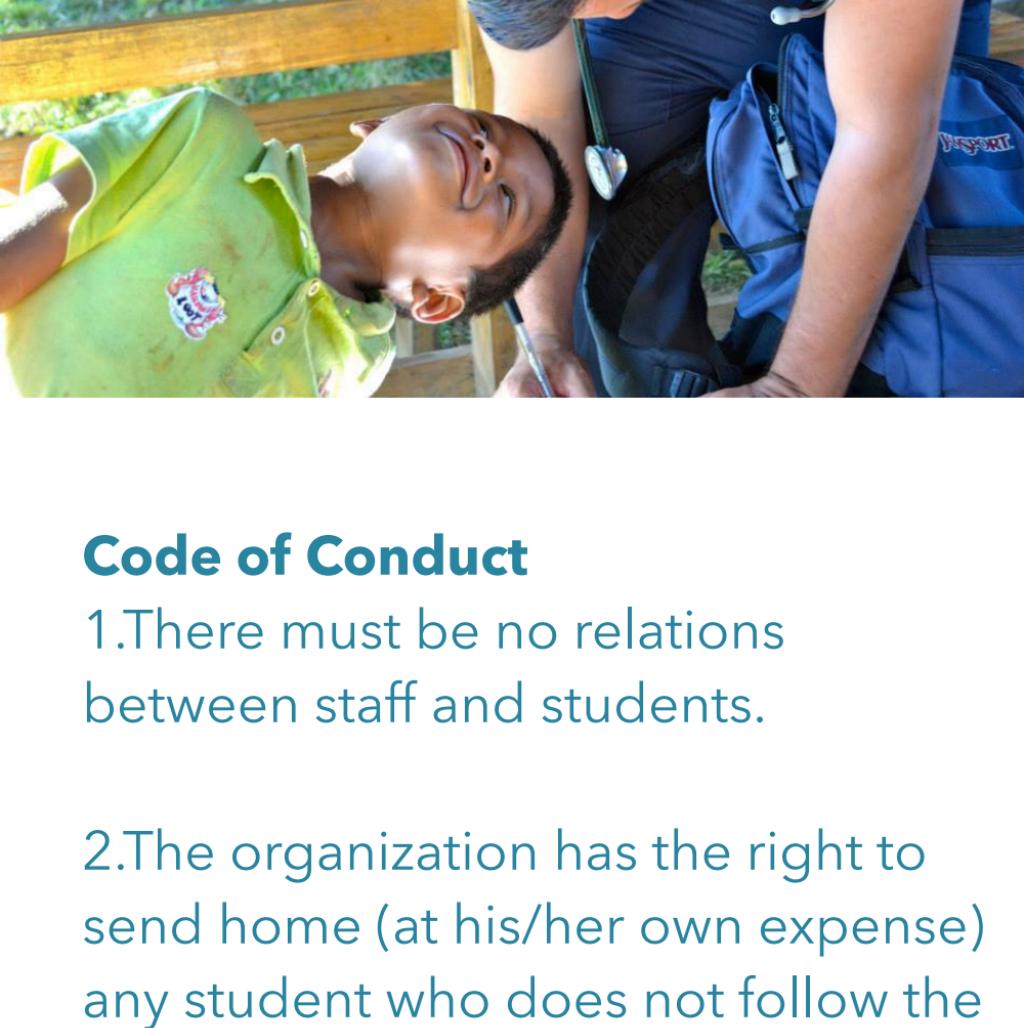

\*Dinner

\*Personal expenses during the tour day

\*For More Information, please contact Director Angela Huergo at: [angelahuergo22@gmail.es](mailto:angelahuergo22@gmail.es)

## Code of Conduct

### Code of Conduct

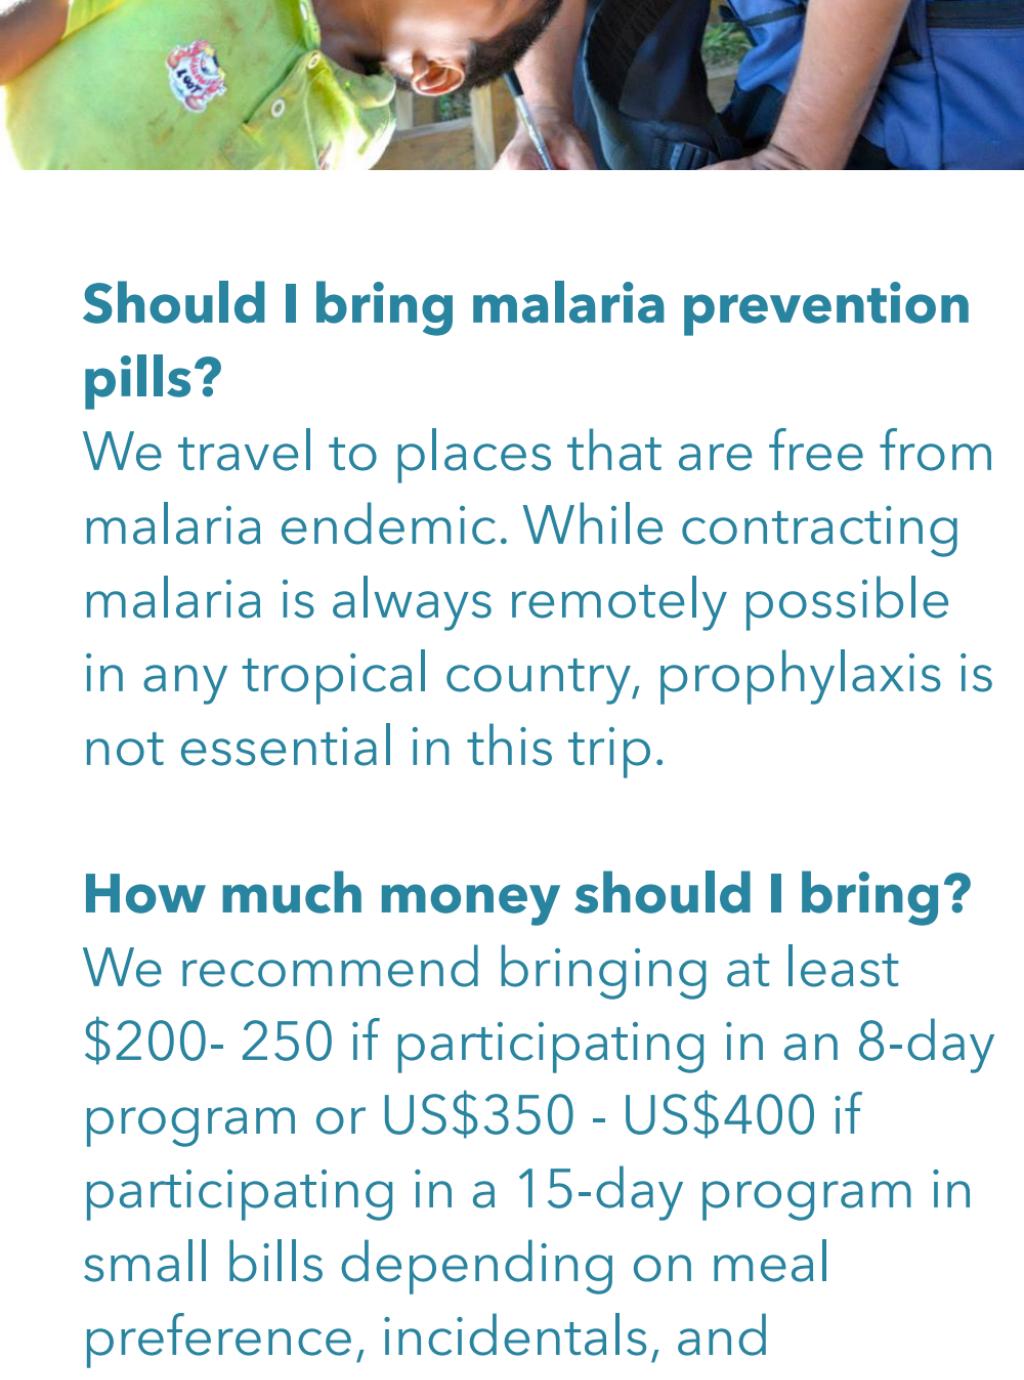

1. There must be no relations between staff and students.
2. The organization has the right to send home (at his/her own expense) any student who does not follow the rules or is rude to the staff members or patients. In equal manner, any disrespect from the staff should be reported to the execs.
3. For their own safety, a staff member must accompany students at all times. There can be no wandering away from the group or going out alone at night.
4. All students must wear scrubs while seeing patients.
5. Do not take pictures of community members without first asking their permission.
6. Staff members are not allowed to drink alcohol with the students.

### **Other examples of student behavior that may lead to immediate dismissal:**

- A threat to the health or safety of self or others
- Sexual harassment of any kind
- Illegal drug use
- Abuse of alcohol
- Failure to attend required activities
- Hitchhiking
- Unauthorized absence from the program
- Unauthorized changes in housing
- Arrest for infractions of local laws

## Frequently Asked Questions

### Should I bring malaria prevention pills?

We travel to places that are free from malaria endemic. While contracting malaria is always remotely possible in any tropical country, prophylaxis is not essential in this trip.

### How much money should I bring?

We recommend bringing at least \$200- 250 if participating in an 8-day program or US\$350 - US\$400 if participating in a 15-day program in small bills depending on meal preference, incidentals, and personal spending.

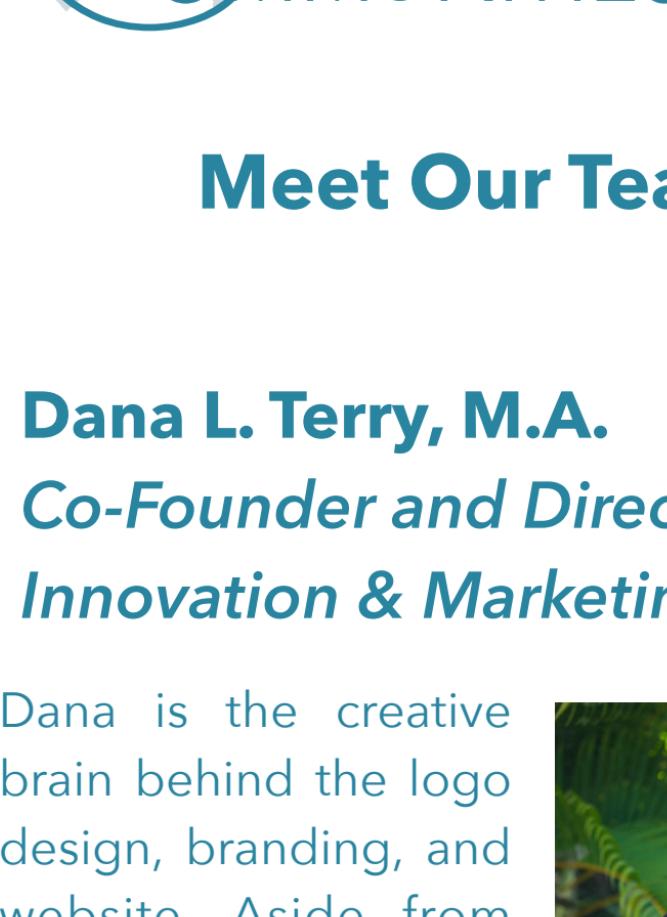

Scrubs are required attire for every clinic day (sports shoes are fine), remember we are a team of medical professionals-in-training.

On the day tour, we suggest that you wear comfortable attire and athletic or walking shoes. There is one night when we will show you the local nightlife so you may want to pack something nice.

### What will I need for meals?

For dinner, we will go to a different restaurant each night, nice but not too fancy, in order to provide a nice sampling of the local cuisine. SC will provide breakfast and lunch during the clinic or school work days.

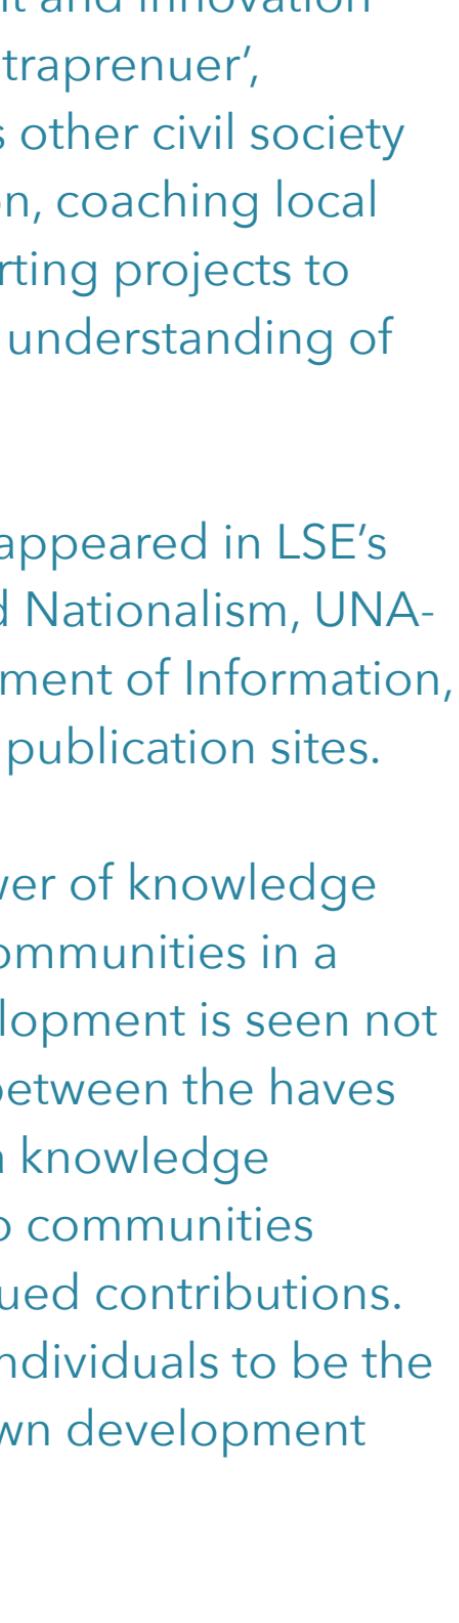

Students are responsible for all other trips meals. Price for the meals will generally range from approximately \$10-\$12 for lunch and \$10- \$12 for dinner so it is advisable to bring about \$120-\$150 for meals if participating in an 8-day program or \$170 to \$200 if participating in a 15-day program. Extra expenses such as beverages and souvenir shopping will depend on personal choices. SC will provide water for the entire trip.

## Meet Our Team

### Dana L. Terry, M.A. Co-Founder and Director of Innovation & Marketing

Dana is the creative brain behind the logo design, branding, and website. Aside from being the co-founder, she is also Synaptic Communities' graphic designer, coder, and program designer. She designed and coded the organization's mobile web-app and is currently working on launching Synaptic Communities' Innovation Lab.

She holds an M.A. degree in International Relations and Diplomacy from Seton Hall University specializing in Post-Conflict Community Development and International Organizations as well as a B.A. degree in International Affairs from Florida State University. She is also a self-taught graphic designer and a graduate of a mobile app coding course as well as a the I/O Avenue Coding Academy Bootcamp where she learned back-end as well as front-end coding languages and mark-up languages.

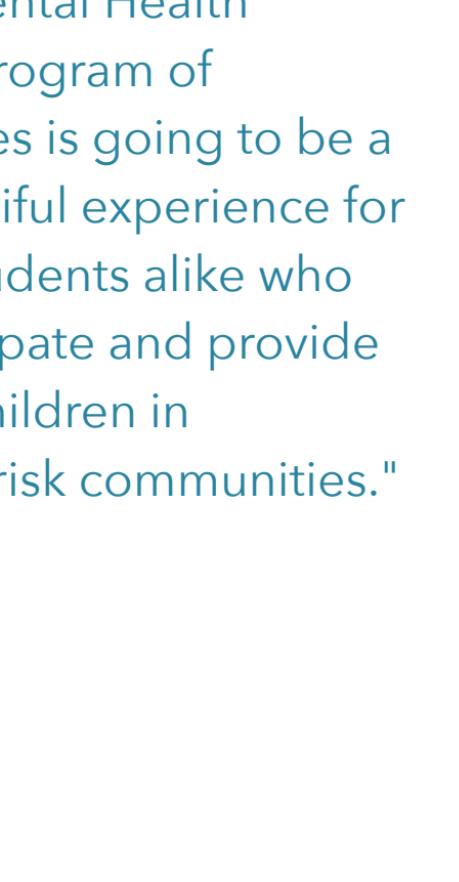

Her work experience ranges from implementing and managing initiatives to grow community development programs, fostering innovation, and empowering women and minority-owned businesses in both Tallahassee, FL and Nicaragua to assisting in the program operations of international organizations based in New York.

She has spent the past three years in Nicaragua working directly for two Non-Governmental Organizations working on economic development and innovation projects as a kind of 'intrapreneur', partnering with various other civil society institutions in the region, coaching local entrepreneurs, and starting projects to increase access to and understanding of technology.

Her publications have appeared in LSE's Studies in Ethnicity and Nationalism, UNA-USA's blog, UN Department of Information, and a few other online publication sites.

"We believe in the power of knowledge transferred between communities in a world where true development is seen not as a one-way transfer between the haves and have-nots, but as a knowledge exchange between two communities respected for their valued contributions. We seek to empower individuals to be the protagonists of their own development stories." - Dana L. Terry

**Dr. Cesar A. Boza M.D. M.S.**  
**Co-Founder & Medical Director**

Cesar is the creator and director of the Medical Program. Aside from being the co-founder, he is also one of Synaptic Communities' Physicians responsible for providing medical services to poor communities and providing students with an amazing learning experience.

He holds a Master degree in Public Health from the Center for Investigations and Studies for Health in Nicaragua. He has years of experience as a medical teacher working with more than four Non-Governmental Organizations sharing knowledge with students while providing communities with free medical attention.

He also worked for the Global Fund as the head consultant for a national program in Nicaragua that focused on reducing the stigma that people with tuberculosis suffer. Through this role, he prepared and gave seminars in every department of Nicaragua focused on teaching doctors and nurses strategies and tools for how to reduce the stigma. He also designed the national manual on the de-stigmatization of TB, which will be used by the national Ministry of Health.

"I guarantee that the Medical Program will be both an amazing learning experience for North American students as well as an opportunity to help Nicaragua's most under-served populations with a high-quality medical service that they wouldn't otherwise be able to afford.

Medicine is the love you share helping others which will not make you irreplaceable but unforgettable".  
- Dr. Cesar A. Boza

**Dr. Gerald Aleman, D.M.D.**  
**Co-Founder & Medical Director**

As Dental Director of Synaptic Community, Gerald Aleman created and coordinates the Dental Program as well as serves as the head dental clinic professor.

He is a Dental Surgeon with three years of experience working as a brigade dental professor in rural communities who has also had his own private practice in the city of Masaya for the past three years. Gerald has a postgraduate degree in Endodontics and a degree in Superior Dental Technician from UCICA (Universidad Católica Redemptoris Mater), a university in Managua.

"The integrity of our principles plays an important role in all forms of human service. Cultivating these principles over the years has allowed me to realize that professional technical skills must go hand-in-hand with human-centered skills for true healthcare quality to be ensured."

**Angela Huego Luz**  
**Education Support for High-Risk Children Program Director**

Ms. Angela created our Education Support for High-Risk Children Program, which targets at-risk schoolchildren in Nicaragua. She is a licensed Psychologist from the Universidad Autónoma de Madrid in Spain and has a specialty degree in therapy for autistic children from APNA (Asociación de Padres de Niños Autistas) as well as a Diploma in Mental Health in Situations of Natural Disasters or Violence from GAC (Grupo de Acción Comunitaria) in collaboration with Universidad Complutense de Madrid and the Spanish Association of Neuropsychiatry.

She has more than 10 years of experience in psychology including infant education, learning and development, counseling, and pre-school education program planning as well as school support for children and adolescents with problems of adaptation. She also has experience providing support for the integration of children with special needs in regular classrooms as well as the diagnosis, development, and monitoring & evaluation of personalized therapeutic programs, parental engagement, and the organization of workshops aimed at early childhood education. She is a Specialist in autism and pedagogy.

She has also worked in the identification and formulation of social-based development projects focused on the most vulnerable populations of women and children including those who have experienced violence or domestic abuse. She has participated in psychological and educational support for people with physical, psychological, or socio-cultural problems and has formed and executed psycho-social support programs in disadvantaged environments.

Lastly, she has experience providing psychosocial and legal consultations to battered and disabled persons along with organizing special education classrooms, therapies, and monitoring and evaluation projects.

Copyright Synaptic Communities. All rights reserved.  
"I believe that the Mental Health Education Support Program of Synaptic Communities is going to be a wonderful and beautiful experience for professionals and students alike who are looking to participate and provide support for school children in Nicaragua's most at-risk communities."

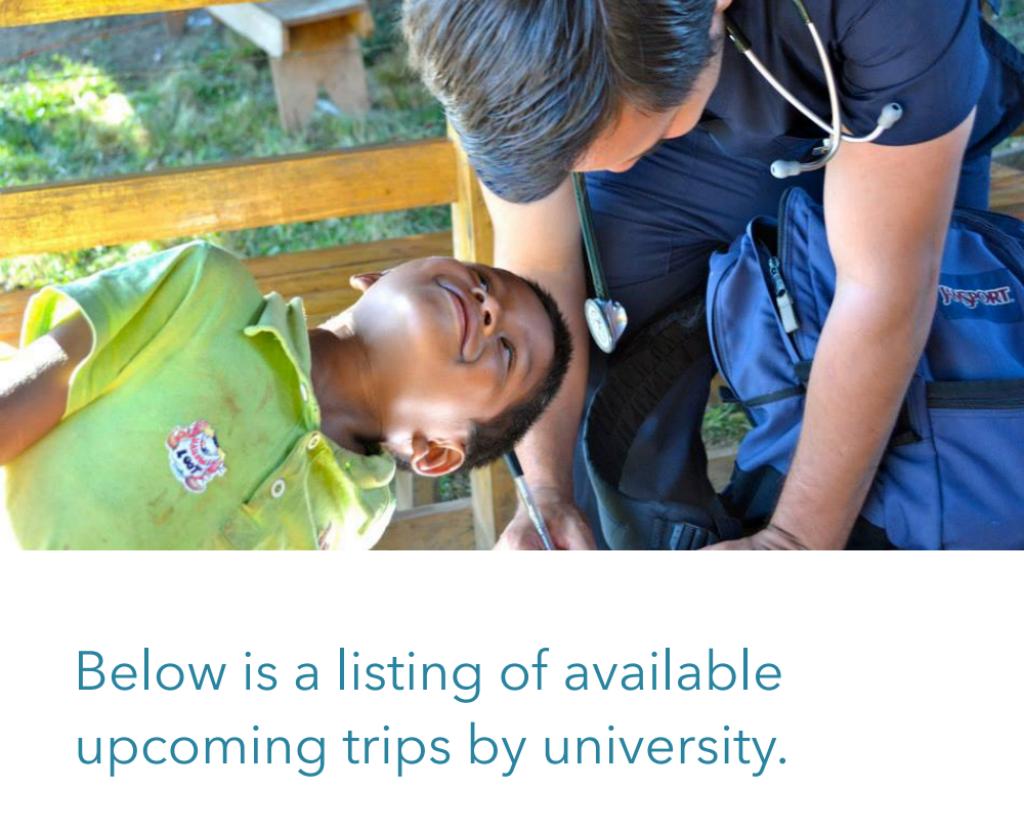

- Angela Huego Luz

This is a RELEASE.

2. I grant SC, or one of its agents, full authority to take whatever action they feel is warranted regarding my health and safety and that they may arrange medical treatment for me, at my expense and that if deemed necessary by the SC personnel and/or local medical authorities, I will be sent back to the United States at my own expense for further medical treatment.

3. I will comply with all the required visas and international travel documents requested by authorities in destination and transit countries in which I travel, as well as their expiration dates for both passports and Visas. All passports must not expire any sooner than six months after the trip date. I understand that failing to comply will result in trip cancellation at my own expense. I understand that I must bring a crisp \$10 for entry into Nicaragua.

4. If I cancel my trip for any reason or fail to comply with any international travel regulations, THERE WILL BE NO REFUNDS.

5. I understand this is a supervised program and agree to uphold individual and group standards set forth by SC personnel. These standards include: -No alcohol abuse or any illicit drugs. -No females in male sleeping area and vice versa. -A midnight curfew applies for the entire trip. SC will no longer be responsible of students after the end of the seventh day of the program. This is to give students freedom to make their own travel arrangements after the end of the program. -Students with special diet requirements must bring their necessary dietary supplements. -If I have any reason to leave the trip group, I must first obtain the permission of a responsible SC staff member. This is for safety reasons.

6. If my conduct is deemed incompatible with the interests and the standards of the group and if my enrollment is TERMINATED, no refunds can be expected and returning to the United States is at my own expense. A verbal warning will be provided prior to expulsion from the program. A written report will be provided later.

7. I understand this is NOT a tourist-type program, but is a learning program as well as an international humanitarian team effort serving disadvantaged people in sometimes remote and difficult circumstances which, on occasion, may include travel over long distances, on land, air and water, on safe transportation.

8. I grant SC permission to reproduce photographs or movies, of me taken during the period of time that I am participating in this program, including written statements I may make concerning this program.

9. The calendar deadline for all SC trip applications and all SC trip payments is eight (8) weeks before the beginning trip date for which you have applied. Our staff needs this to finalize reservations and services for you. When you submit an application, you will be placed on the "applied for" list for that trip. When you submit your payment you will be placed on the "final trip list".

10. I declare that I am not addicted or habituated to the use of non-/or prescription mood altering drugs/ chemicals, including alcohol, and will not seek these drugs while on a SC trip.

11. A midnight curfew applies for the entire trip for safety reasons. This means that all trip participants and SC staff must be inside our hotel before midnight and remain there the rest of the night.

12. No alcohol abuse or any illicit drug use will be allowed. If this is violated, the participant(s) will be specifically warned, verbally and in writing, and a second violation can result in a dismissal of that participant from the remainder of the trip. There will be no refunds and any additional related expenses will be paid by that trip participant.

13. Travel and health insurance is the responsibility of each trip participant.

14. Any trip participant activities either before the in-country arrival day or after the end of the seventh day of the program are not the responsibility of SC. This includes any tours, visits or sightseeing that I may elect to do in the trip country or elsewhere. I do those things upon my own initiative and responsibility and at my own risk, whether before or after the SC trip.

Please show this agreement to your parents or any other person(s) who may feel a shared responsibility for your well-being.
